Golden, CO 80403-8200

RE: Buildings 883 and 879 notification of intent to invoke the Facility Component Removal, Size Reduction, and Decontamination Activities RSOP (Component RSOP)

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed your letter dated December 20, 2001, received on December 31, 2001, notifying us of your intent to utilize the Component RSOP for component removal, size reduction, and decontamination activities that are to occur in Buildings 883 and 879. We hereby agree that the appropriate activities may proceed utilizing the Component RSOP.

Although these activities may proceed utilizing the Component RSOP, as indicated in your letter, the consultative process will be utilized to keep us informed of the decommissioning strategy and activities to occur prior to performing the decommissioning activities.

It is stated in your letter that the "subcontractor will conduct work in accordance with his work control documentation". The utilization of the Component RSOP also includes implementation of the work control process as provided and approved in the Component RSOP. As such, the subcontractor's work control process must adhere to that described in the Component RSOP, or it must be shown to be equivalent. Any variation from the work control process as described and approved in the Component RSOP must be identified and appropriate rationale provided for our approval.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson  
RFCA Project Coordinator
